

Facility Maintenance Tuesday January 21st

This coming Tuesday, January 21st we will be undergoing some facility maintenance. We appreciate your patience and cooperation as we have 7 new AC units being replaced on the roof of our building. The safety of our staff and members is top priority.

Parking where the □ is located will be barricaded off to allow for staging and use of a crane.

From 7:00-8:30am our front entry will be closed. Staff will be located on our pool patio where all members may enter and exit through the side pool doors. Members **MUST** have their membership cards present at the time of entry. During this time frame we will not be able to process any monies or register memberships.
